PATRICIA COSTA

Web Developer

Hard-working web developer with a flair for creating elegant solutions in the least amount of time. Passionate about software architecture and cloud computing. Demonstrated exemplary teamwork to provide the best and most efficient service to the clients and meet deadlines.

Experience

Natixis

2021 - Present

Software Development Consultant

- Resolving a range of technical issues across multiple systems and applications for customers and end-users across various time zones.
- Actively contributing to internal and external meetings regarding current and upcoming issues.

Bizview

2020 - 2021

Full-Stack Developer

- Implemented new functionalities on a holiday management web application. Converting it into an all-encompassing and intuitive HR management tool.
- Modernised existing websites to more recent technology.
- Assisted in re-architecting a PC online store into a custom PC builder web application.
- Designed and developed a user-friendly mobile app for Android for data insertion, replacing hours of typing data collected by hand to an excel sheet.
- Developed a back-office app to show the collected data from the mobile app and show it in an organized way allowing the generation of reports.
- Developed a website to show in an organized way information from a massive database.

We Provide

2019 - 2020

Web Developer Trainee

- Worked alongside another developer to create a holiday management web application. Starting from an excel file's draft, we converted it into a web application intuitive tool.

Education

ATEC Training Academy

2018 - 2019

Technological Specialization course in IT Technologies and programming

This practice-oriented course gave me a great base of knowledge for multiple programming languages (C#, php, javascript) as well as popular frameworks (.NET, Laravel, Angular) together with multiple database subjects. This together with training according to German standards left me qualified for the market.

Porto Accounting and Business School

2013 - 2016

Bachelor's Degree - Administrative Assistance and Translation

The Curriculum Plan for Assistance and Translation is based on two main areas, which aim to provide the graduate with knowledge and skills that allow him to work in different organizational contexts.
